Projekt platforme za suradnju **Centra za dramsku umjetnost, Multimedijalnog instituta, Platforme 9,81 i Što, kako i za koga [WHW]**

## Koncept kulturne prijestolnice je u razdoru.

Projekt kulturnih prijestolnica prožet je dvostrukom ambivalentnošću - on je u razdoru između centralnosti prijestolnica i transverzalnosti kapitala, a taj razdor očituje se u sve većoj hibridnosti kulturne proizvodnje suprotstavljene pozicijama nacionalno-kulturnog identiteta. Preobrazila se politička ekonomija reprezentacije - uklopljena u globalizirane komunikacijske razmjene, reprezentacija više nije stvar predstavljanja reprezentativne, dominantne i unutar granica nacionalne države (re)producirane kulture apstraktnom kulturnom potrošaču. Naprotiv, ona povezuje konkretnе subjekte na specijaliziranim poljima praksi i znanja koji djeluju unutar zajedničkog konteksta globalne ekonomskе proizvodnje - proizvodnje [pomoći] samih sredstava društvenosti: komunikacijskih razmjena. A kao što domena kapitala postaje socijalna, socijalna postaje i domena kulture.

## U našem tranzicijskom kontekstu kulturni kapital aktualizira pitanje društvenog djelovanja.

Kako se tranzicija naposljetku svela na dvije stvari: prepuštanje djelovanju tržišnih sila i napuštanje društvenih projekata [ili prije, društva kao projekta], tako je njen najizraženiji učinak postalo nekontrolirano i netransparentno provođenje privatnih interesa u upravljanju javnom sferom. Osjetno odsustvo društvene legitimacije odražava se u iscrpljivanju javnih resursa. A ponekad, kao što je najbolje vidljivo na primjeru naše okoštale institucionalne kulture i njoj služećeg sustava javnog financiranja, održati status quo značilo je biti na samom čelu tog procesa. I dok i dalje jedina dinamika

promjene u odnosu između države i institucija koje uzdržava, unatoč drugačijim očitovanjima u strategijama kulturnog razvoja, ostaje dinamika partikulariziranih interesa, poseban društveni i razvojni značaj dobivaju oni nezavisni akteri koji su sposobni iznova artikulirati kulturno djelovanje u terminima socijalne akcije, a socijalno djelovanje u terminima kritičke kulture.

## Suradnja - protuprijedlog za kulturnu prijestolnicu.

Platforma **Zagreb - Kulturni kapital Evrope 3000** ima za cilj poduprijeti nastajuću suradnju među inicijativama na nezavisnoj kulturnoj sceni koje istražuju, svaka na svom vlastitom i vrlo različitom polju djelatnosti, promijenjene uvjete za kulturno i socijalno djelovanje nastale zbog sve većeg lokalnog upliva translokalnih ekonomskih i komunikacijskih razmjena, te koje rade na reformi institucionalnog okruženja ne bi li pospješile prisutnost i sudjelovanje nezavisne kulture. Tijekom sljedeće dvije godine Platforma će razviti mnoštvo lokalnih i internacionalnih interdisciplinarnih suradnji na projektima koji će predstavljati i razvijati nove grupne dinamike, nove kolektivne strategije i nove forme rada u kulturnoj proizvodnji; osjećivati i hibridizirati kontrolu nad proizvodnošću režimima intelektualnog vlasništva; zagovarati zaštitu javne sfere pred privatizacijom; kreirati policy prijedloge za jačanje i razvoj sektora nezavisne kulture te osigurati njegovu prisutnost i u kulturnom kapitalu i u kulturnoj prijestolnici. Kao što će stvarati suradnju tako ona će i istraživati i širiti njene uvjete mogućnosti, jer kulturni kapital više nisu infrastrukture, već suradnje. Naime, suradnja jest njegova infrastruktura.

# Zagreb - Cultural Kapital of Europe 3000

A collaborative platform project by the **Center for Drama Art, Multimedia Institute, Platforma 9,81 & What, How and for Whom**

## The concept of cultural capital is out of joint.

Twofold ambivalence traverses the constitution of the project of cultural capitals - it is torn between the centrality of *capitals* and the transversality of *Capital*, and this is, in turn, reflected in an increased hybridity of cultural production pitted against the identitarian positions of national. The political economy of cultural representation has been transformed - immersed in globalized communicational exchanges, representation is no longer a matter of presenting a representative, dominant culture (re)produced within the confines of a nation state to an abstract cultural consumer. Rather it connects singular subjects in specialized fields of practice and knowledge which act against a common background of global economic production - a production of an by the very means of sociality: communicational exchanges. And just as the capital engages the social, so does culture.

## In our transitional context, cultural capital reengages the question of social agency.

If the process of transition has come to denote two things - surrendering to the pull of market forces and relinquishing social projects [or rather, the social as a project] - its foremost effect has become the uncontrollable and non-transparent assertion of private interest in the management of the public domain. The tangible absence of social legitimization is mirrored in the depletion of public resources. And sometimes, as is best exemplified by our ossified institutional culture and its tributary system of public funding, maintaining the status quo means being at the forefront of this process. And while the only dynamics of change in the relation between the state and the institutions it supports, and contrary to the statements made in strategies of cultural development, remains the dynamics of particularized interests, special social and developmental relevance is acquired by those independent actors who are able to rearticulate cultural agency in terms of social action, and social agency in terms of critical culture.

## Collaboration - a counter-proposition for cultural capital.

The platform **Zagreb - Cultural Kapital of Europe 3000** has as its goal the reinforcing of the incipient collaboration between independent cultural scene initiatives that investigate, each in its own and very different field of action, changing conditions for cultural and social action which have come about as a consequence of the growing local importance of translocal economic and communicational exchanges, and that work on the reform of institutional framework to increase the presence and participation of independent culture. Over the next two years, this Platform will produce a number of local and international interdisciplinary collaborations on projects, presenting and engaging new group dynamics, new collective strategies and new forms of labour in cultural production; counteracting and hybridizing the control of productivity through intellectual property; advocating the protection of public domain in face of privatization; and producing policy proposals for the strengthening and development of an independent cultural sector and securing its presence within the cultural capital. Just as it will create collaboration it will at the same time investigate and extend its conditions of possibility, because cultural capital no longer means infrastructures, but rather collaborations, for collaboration *is* its infrastructure.

## **CDU - Centar za dramsku umjetnost Mala fronta novog plesa i performansa**

Projekt **Mala fronta novog performansa i plesa** planirana je na dvije godine kao istraživanje načina (re)prezentacije nove hrvatske umjetničke scene u kontekstu reprezentacionističke kulture, mrežnih sustava i sudjelovanja na međunarodnom tržištu umjetnosti. Projekt je fokusiran na istraživanje i tematizaciju suradničkog aspekta nematerijalnog rada te utopljenoosti materijalnog rada u afektivnu proizvodnju umjetničke produkcije.

## **Multimedijalni institut**

### **OutInOpen**

Projekt **OutInOpen** će prenositi strategije razvijane u sferi informacijskih i komunikacijskih tehnologija van njihove domene u otvorene prostore, a da bi poticao vektore javne interakcije i razmjene te privremeno ili trajno pomogao obuzdati presezanja kapitala u javnu sferu. Kroz predavanja, prezentacije, performanse i policy aktivnosti bavit će se alternativama režimu intellektualnih prava, strategijama hakiranja sustava društvene kontrole i hibridiziranjem fizičkih prostora pomoću tehnologija u cilju stvaranja tehnološki proširenih fizičkih prostora za javnu interakciju.

## **PLATFORMA 9,81**

### **3D Žurnal: No1**

**Kapital u prostoru** istražuje urbane fenomene i arhitekturu koja je obilježila tranzicijsko razdoblje u Hrvatskoj. Istraživanje se bavi hibridnim tipologijama tzv. komunalnih prostora - prostora socijalne razmjene koji su ključni indikatori materijalne kulture u nastajanju.

## **WHAT, HOW & FOR WHOM [WHW]**

### **Kolektivna akcija**

Projekt **Kolektivna akcija** bavi se fenomenom umjetničkih grupa i različitima aspektima kolektivnog rada i kolektivnosti. Fenomen umjetničke grupe upućuje na određeni društveni sukob nastao kao reakcija izoliranih pojedinaca organiziranih u kolektiv, s ciljem istraživanja alternativnih modela redistribucije moći. To društveno okupljanje *a priori* je politička gesta temeljena na opoziciji koja odražava nemogućnost pojedinca da se suoči s ograničenjima sustava te da u njemu djeluje.

**relations** seeks to initiate a dialogue with makers of art and culture in the countries of Eastern Europe. The aim is to set up, support and network local initiatives in the areas of contemporary arts, culture and social science. New and already existing cultural spaces are to be opened up or stabilized. The substantial focus of the common projects in art and culture is thus initially the artistic and social scientific engagement with local and regional problematic.

In a second step, the exchange of knowledge and co-operation with German partners will be supported. The German partners will accompany the projects throughout their entire duration and develop possible forms of presentation in Germany in co-operation with the teams in the countries of Eastern Europe.

During 2003 relations will launch around ten projects, supported by an advisory board whose members are well-known representatives of the European cultural scene. What will arise in the course of time is a kaleidoscope of diverse initiatives, with exhibitions, publications, cultural studies, installations, flanked by documents which tell of the transitional zones between politics and geography, history and stories, among others in Warsaw, Sofia, Priština, in Bucharest, Sarajevo and Zagreb.

**Zagreb - Cultural Kapital 3000** takes place in the framework of **relations** - a project initiated by the **Federal Cultural Foundation, Germany**.

**CDU - Center for Dramatic Art*****Little front of new performance and dance***

The project **Little front of new performance and dance** is planned to last two years, examining ways of (re)presentation of new Croatian performing arts scene in the context of representative culture, but also new networking systems and participation in the international art market. The focus will be on research and thematization of the co-operative aspect of immaterial labour, but the project also explores immersion of material labour in artistic production into affective production.

**Multimedia Institute*****OutInOpen***

Project **OutInOpen** will be taking strategies developed in the domain of information and communication technologies beyond their confines and out into the open to strengthen the vectors of public interactions and exchanges, and to briefly or lastingly help overturn the overreaching of capital into the public domain. Through lectures, presentations, performances and policy activities it will deal with alternatives to the intellectual property regime, strategies of hacking the systems of social control and hybridization of actual space with technologies in order to create new augmented spaces for public interactions.

**PLATFORMA 9.81*****3D Žurnal: No 1***

**Capital in Space** takes investigations in early phase of liberal economy and social transition in Croatia with its influence on architecture and urban developments. The main interest is focused on the hybrid types of emerging community spaces - physical spaces for production of social exchange.

**WHAT, HOW & FOR WHOM [WHW]*****Collective Action***

The project **Collective Action** explores the phenomenon of artists group and different aspects of collective work and collectivity. The phenomenon of the artists group points toward certain social conflicts realized as the reaction of isolated individuals organized in a collective with the aim of exploring alternative models of power redistribution. This social gathering is an a priori political gesture based on oppositions that reflect the inability of an individual to confront the system of restrictions and act within it.

Cilj je organizirati, podržati i umrežiti lokalne inicijative u području suvremene umjetnosti, kulture i društvenih znanosti. Otvorit ćemo nove, ali i stabilizirati već postojeće prostore kulture. Fokus zajedničkih projekata u umjetnosti i kulturi je inicijalno umjetnički i društveni angažman na području lokalne i regionalne problematike.

Drugi korak je podrška razmjene znanja i kooperacije s njemačkim partnerima koji će se priključiti projektima tijekom njihova cjelokupnog trajanja, te će s istočnoevropskim partnerima razviti oblike prezentacije kooperacije u Njemačkoj.

Tijekom 2003. godine relations će, uz podršku savjetodavnog odbora koji će sačinjavati poznati predstavnici evropske kulturne scene, inicirati oko deset projekata. Vremenom će se razviti kaleidoskop različitih inicijativa, s izložbama, publikacijama,

Projekt **Watt+Eau** djeluje u sklopu **AKCIJE/FRAKCIJE** u suradnji s **BADco.** i **EkS-scenom**, te uz podršku **Akademije dramske umjetnosti** iz Zagreba i **Imaginarne akademije** u Grožnjanu. Započet u srpnju 2002., projekt okuplja skupinu mlađih plesača, koreografa i studenata dramaturgije na desetodnevnoj radionici u Grožnjanu. Uz svakodnevne treninge, te osobito zajedničke diskusije, kreativna atmosfera relativne izolacije malog srednjovjekovnog grada urodila je uistinu različitim umjetničkim konceptima i modelima istraživanja.

Druga faza relocira rad u Zagreb [u okviru **Urbanog festivala** u rujnu 2002.]: javne prezentacije događaju se na lokacijama glavnog gradskog trga, u izlogu dućana namještaja, te unutar privatnog stana uz projiciranje događanja na vanjske zidove zgrade u kojoj se stan nalazi.

**Watt+Eau** ne teži reinskrirati lokacije svojom prisutnošću ili tematizirati "autentičnost" grada/iskustva, već istražiti odnos privatno/javno, te odnos do prostornosti u kontekstu današnjeg tehnoglobalizirajućeg svijeta, gdje ideja fiksne geografske lokacije ili čak fiksног identiteta postaje zastarjela, reakcionarna u novoj mobilnoj kulturi.

The **Watt+Eau** project is a part of **AKCIJA/FRAKCIJA** in collaboration with **BADco.** and **EkS-scena**, supported by the **Academy of Dramatic Arts** in Zagreb and the **Imaginary Academy** in Grožnjan. Started in July 2002, the project gathers together a group of young dancers, choreographers, and dramaturgy students at a ten-day workshop in Grožnjan. Through everyday classes, and even more so through discussions, the creative atmosphere of the relatively isolated small medieval town gave birth to distinctively different artistic concepts and modes of research.

In its second stage the project was relocated to Zagreb [as a part of the **Urban Festival** in September 2002] with a number of public presentations in various urban localities: the main city square, in the display of a furniture retailer, inside a private apartment with video projections on the outside of the apartment building.

**Watt+Eau** is not about re-inscribing localities with its presence or about questioning the "authenticity" of city/experience, but rather about researching the relation between public and private, relation to spatiality in the context of today's technoglobalizing world where the idea of a fixed geographic location or even fixed identity becomes obsolete, even reactionary, in the new mobile culture.

Sudionici/Participants: **sudionici projekta + svi zainteresirani /**

The aim of **Little Front of New Performance and Dance** is to present Croatian new theatre, dance and live-art production to local and international curators and programmers, but also to discuss several topics:

- ¶ What are the new developments in Croatian performance today?
- ¶ How to situate European performing arts market and Eastern-European performing arts production
  - expectations, production, axiology, resistance, patterns
  - what must be excluded from the market for the market to proceed?
- ¶ Transition - Could we skip it? And transition to what? What can we learn from the European market today and how should we avoid total dependence on the market before we enter it [or it enters us]?
- ¶ What might be the strategies of investment in non-product and non-market oriented art processes?

Our idea is not only to present Croatian performing arts to international curators, programmers and producers, but also to give the artists and programmers the opportunity to question, to check and to offer new ideas. Artists are invited to rethink the idea of platform and self-presentation - special attention will be drawn to in-country touring and project exchange. In collaboration with **Platforma 9,81**, the artists will choose abandoned venues that will be (re)thematized as possible cultural venues.

Cilj **Male fronte novog performansa i plesa** je prezentirati novo hrvatsko kazalište, ples i performans produkciju lokalnim i internacionalnim kuratorima i programerima, ali i raspraviti nekoliko tema:

- ¶ Koji su novi razvojni pravci u hrvatskim izvedbenim umjetnostima danas?
- ¶ Kako pozicionirati evropsko tržište izvedbenih umjetnosti i istočno-evropsku produkciju izvedbenih umjetnosti – očekivanja, produkcija, aksilogija, otpori, uzorci – što mora biti isključeno iz tržišta da bi tržište moglo funkcionirati?
- ¶ Tranzicija - možemo li je preskočiti? I tranzicija prema čemu? Što možemo naučiti iz evropskog tržišta danas i kako možemo izbjegći potpunu ovisnost o tržištu prije nego što mu se priključimo? Ili prije nego što tržište prodre do nas?
- ¶ Koje bi mogle biti strategije investiranja u neutržišno orijentirane umjetničke procese?

Naša ideja nije samo prezentirati hrvatsku izvedbenu scenu evropskim producentima, nego i dati umjetnicima i programerima priliku da propituju, provjeravaju i da nude nove ideje. Umjetnici su pozvani da promisle ideju platforme i samoprezentacije - posebno ćemo se osvrnuti na mogućnosti gostovanja unutar Hrvatske i razmjenu projekata. U suradnji s **Platformom 9,81**, umjetnici će izabrati napuštene prostore koji će biti retematizirani kao mogući prostori kulture.

Komad je zamišljen kao kolaž u koji se slaže dio po dio dok se svi njegovi dijelovi ne sklope u novu cjelinu. Impersonalizacijom pokreta u prvi je plan stavljeno tijelo, a ne osoba, iako se ne može zanemariti njena težnja za dominacijom i pomicanjem granica u koje je stavljena. Ta latentna borba za dominacijom stvara napetost koja se sve više povećava i izbjiga na površinu do konačnog slamanja fizičko-mentalnog prostora u kojem se osoba nalazi. Međutim, kad ona napusti taj prostor on nastavlja egzistirati u novom ozračju i bez njenog prisustva.

**NENSI LAZIĆ** rođena je 1976. u Zagrebu. Nakon završene Škole za ples i ritmiku Ane Maletić upisuje Akademiju za suvremenih ples u Salzburgu [SEAD], smjer koreografija. Pri završetku studija usavršava se na *Tisch School for Performing Arts* u New Yorku i u Bečeju kao stipendistica *danceWEB-a*. Tijekom i nakon studija koreografira kraće plesne komade od kojih su dva dobila prve nagrade na natjecanju mladih koreografa u Burghausenu, Njemačka. 2003. godine sudjeluje u šestomjesečnom programu koreografskog centra *Languedoc-Rousillon* pod umjetničkim vodstvom **Mathilde Monnier**.

This work is conceived as a collage that is gradually constructed piece by piece until all the parts form a new whole. It is this depersonalized movement rather than the individual or 'person' that is placed in the foreground. However, in that movement we might still recognize a desire to transcend physical confines. This latent struggle for dominance over the body appears as a tension which slowly increases and finally emerges on the surface with a breaking of the physical/mental space in which a person exists. When the body leaves the space where events took place, that space does not become lifeless, but continues to be active.

**NENSI LAZIĆ** was born in 1976 in Zagreb. After finishing the *School of Rhythmic and Dance* in Zagreb, she studied choreography at the *Academy of Contemporary Dance* in Salzburg [SEAD], continuing at the *Tisch School for Performing Arts* in New York and in Vienna under a *danceWEB* scholarship. During and upon completion of her studies she choreographs short dance pieces, two of which were rewarded at the young choreographers competition in Burghausen, Germany. In 2003 she takes part in a six-month program at the *Languedoc-Roussillon* choreography center under the art director **Mathilde Monnier**.

Drama s dva lika i didaskalijom koja govori

u manipulaciji realitetom, kako dramskim,  
tako i njegovom socijalnom konstrukcijom.

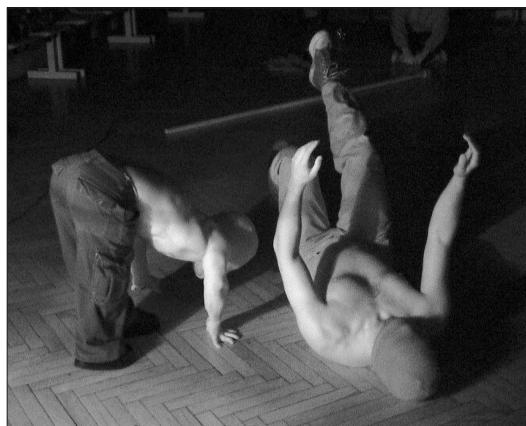

Predstava je zamišljena kao mali izvedbeni

obitelji, rata, terorizma, nuklearnih strategija,  
zatvora, pop glazbe i sl. Istražujući tekst Ivane

intervencija, interaktivna video instalacija

Umjetnica u kratkim vremenskim intervalima intervenira unutar postojećih dramaturških 'breakova' ili u trenutku u kojem potencijalni prekid može označiti početak novog smjera predstave. Video projekcija umjetničinog laštenja poda u scenskom prostoru predstave funkcioniра kao strano tijelo koje se stapa u integralni dio predstave. Uzastopne intervencije laštenja poda simbolički prekidaju predstavu pripremajući prostor za sljedeću etapu, za svojevrsni 'novi početak'.

*RibCage* is a performance based on a play written by **Ivana Sajko**.

A play with two characters and stage directions written to be spoken in the first person, this is a text which carries its politicality in the manipulations of reality, both in dramatic reality as well as in the social construction of reality.

The performance is conceptualized to be a small performing mechanism which 'plugs into' other mechanisms such as family, war, terrorism, nuclear warfare strategies, prison, pop music and the likes. The basic working principle of working process, which came out of the analysis of Ivana's text, was based on the detecting of the navigational mechanisms of the play instead of dealing with its

interpretation, which itself is dealt with in a radio-play made in 2002 by **Goran Sergej Pristaš**. The radio-play therefore also enters the performance as one of its constitutive elements.

The performance came about as a collective authorial act in which a group of authors-performers searches for possible relationships of self-organization by questioning the existing hierarchical model prevailing in theatre production.

**BAD co. - Bezimeno Autorsko Društvo** osnovano 2000. godine nakon uspješne suradnje nekolicine autora na projektu *Ispovijedi u Teatru & TD*. Iste godine ostvaren je i prvi samostalni projekt *Čovjek.Stolac*. Tijekom 2001. skupina je napravila još dvije predstave: cijelovečernji koreografski projekt *2tri4* kasnije nagrađen na međunarodnom koreografskom natjecanju *Tendances* u Luksemburgu te predstavu *Diderotov nečak* premijerno izvedenu na *Splitskom ljetu*. Koreografija 2 by **Nikoline Bujas-Pristaš** izabrana je među 10 najboljih na natjecanju *Aerowaves* u Londonu, a u Amsterdamu na festivalu *Julidans* dobila je 1. nagradu za najperspektivnijeg mladog koreografa u Europi. Tijekom 2002. godine izveli smo premijerno dvije plesne predstave: *Persen* by **Aleksandre Janeve** koja je u suradnji s međunarodnom grupom umjetnika premijerno izvedena u Luksemburgu te *Solo Me Pravданa Devlahovića* i **Nikoline Bujas Pristaš** koja se premijerno izvodi u Bergenu u Norveškoj. Na ovogodišnjem *Eurokazu* izveli smo i predstavu *Rebro kao zeleni zidovi*, a slijede premijere: solo predstava **Pravданa Devlahovića** *Walk This Way* i prva režija **Ivane Sajko** *Misa*.

**BADco.** was established in the year 2000 after the successful collaboration of its authors on the project *Confessions in Theatre &TD*. The same year saw the realization of the group's first independent project: *Man.Chair*. During 2001 they realized two more projects: the full-length choreographic project *2tri4*, later awarded at the international choreography competition *Tendances* in Luxembourg, and the performance *Diderot's Nephew* which premiered at the *Split Summer Festival*. The choreography 2 by **Nikolina Bujas-Pristaš** was among 10 of the best choreographies at *Aerowaves* in London and at the *Julidans* festival in Amsterdam she was acclaimed as the most promising young European choreographer. In 2002 the company had two new productions: *Persen* by **Aleksandra Janeva** - a collaboration with a group of international artists which premiered in Luxembourg, and *Solo Me by Pravdan Devlahović* and **Nikolina Bujas-Pristaš** which opened in Bergen, Norway. At this year's *Eurokaz* festival in Zagreb we performed *RibCage*, and our two upcoming premieres include: **Pravdan Devlahović**'s solo performance *Walk This Way* and *Mass*, directed by **Ivana Sajko**.

## **Tanja DABO - Maintenance: Rib as green walls intervention, interactive video installation**

During the performance of *RibCage*, the artist intermittently intervenes in the existing dramaturgic "breaks" of the show itself, or in moments when a potential break could mark a change of direction or a beginning of a new development in the show. The video projection of the artist's momentary polishing of a floor on the stage functions as a foreign body that blends as an integral part of the show. The repeated interventions of polishing the floor symbolically interrupt the show, preparing the stage for the next phase, for a "new beginning" of sorts.

Priča Koore temelji se na sadržaju tibetanskih mandala, a proces rada i sama izvedba na *butoh* metodi. Mandala znači

**TANJA ZGONC** je slovenska plesačica i koreografkinja prepoznatljiva po primjeni *butoh* metode. Autorica je desetak samostalnih predstava, a za posljednju *Kagami/Odrazi* dobitnica je nacionalne slovenske nagrade za kulturu - Prešernove nagrade. [Predstava je gostovala na 17. tijednu suvremenog plesa u Zagrebu]. Razvila je autorsku metodu "leđa". Školovala se kod vodećih japanskih učitelja *butoh-a* [**Kazuo Oono, Min Tanaka, Ko Murobusci, Tadashi Endo, Carlotta Ikeda**]. Docent je na ljubljanskoj kazališnoj akademiji [AGRFT], gdje vodi katedru za scenski pokret.

The story of *Koora* is based on the content of the Tibetan mandalas, while the work process and performance itself is based on the *Butoh* method. Mandala means 'circle', even when it is painted in a complex way and placed in a square frame. For this reason, the performance uses the logic of the circle as used by cybernetic systems, and which might be strange to those who are used to thinking according to the principles of traditional linear logic of cause and effect. The circle hides the possibility of original insight. This project searches for answers to previously encountered insights, experiences, interpretations that are structured recursively as the groundwork for future processes, and which are continued with new insights, experiences, interpretations... of the viewer as well. The view of/into the performance depends on the position of the viewer in the "mandala".

**TANJA ZGONC** is a Slovenian dancer and choreographer known for using the *Butoh* method. She is the author of some ten independent performances. For the last one - *Kagami/Odrazi*, she was awarded the National Slovenian award for culture - the Prešern award. The *Kagami/Odrazi* was performed at the **17th Dance Week Festival** in Zagreb. She developed the original "back" method. She has studied with leading Japanese teachers of the *Butoh* method [**Kazuo Oono, Min Tanaka, Ko Murobusci, Tadashi Endo, Carlotta Ikeda**]. She teaches scene movement at the **Theater Academy** [AGRFT] in Ljubljana.

*Mi-Nous* je intimna koreografija za dvoje plesača, duet o zamršenosti ljudskih veza, Njemu i Njoj, o razdoru između ljubavi i utjecaja različitih okolina koje ih okružuju. Iako fizički razdvojeni, oni pokušavaju stvoriti bliskost koristeći komadiće vremena koje su proveli zajedno. Pisma, poruke i uspomene postaju zakloni ljubavi. Suptilnost odnosa likova, unatoč njihovoj razdvojenosti, reflektira se u suptilnosti pokreta. Stalni gubici te ponovna uspostavljanja ravnoteže u vezi uzrok su raznolikosti komunikacije na sceni, kao i brojnih emotivnih stanja iz kojih nastaje pokret. Gledatelj će prepoznati njihovu iskrenost kroz intimnost njihova dodira.

*Mi-Nous* is an intimate piece for two dancers. It is a duet about the complexity of human relationships, for Him and Her, about the divergence between love and the influence of different surroundings encircling them. Although physically apart, they try to create closeness by using the pieces of time they had spent together. Letters, messages, and memories become the refuges of love. The subtlety of the relationship between the characters, despite their separation, is reflected in the subtlety of movement. Continual losses and the regaining of balance in their relationship causes the diversity of their communication on stage, as well as the variety of emotional states from which the movement originates. The spectator will recognize their sincerity through the intimacy of their contact.

*Schneewittchen*, kao i njezin autor **Robert Walser** [1878-1956], posjeduje neuhvatljivu osobujnost: tek nedavno ga umjetnici različitim praksi počinju otkrivati, dok teoretičari analiziraju njegovu engimatičnu semantičku tekoniku, a gledatelji uživaju u uzbudnjima koje pruža. Hrvatski redatelj **Ivica Buljan**

postavlja **Walserov** tekst u hladno, bajkovito i razigrano okruženje u kojem Snjeguljica sa svojim snježno bijelim vratom podsjeća na žrtve vamira, gdje zla Kraljica, nemogavši odoljeti vlastitim iskušenjima, igra ulogu *femme fatale*, Kraljević je neodlučan, a Lovac igra dvostruku ulogu i prolazi kroz nevjerojatnu transformaciju. U ovoj, poput spirale uvinutoj priči svi glumci pokušavaju dosegnuti svoje bajkovite završetke, koji nisu: "...i živjeli su sretno i zadovoljno".

**IVICA BULJAN** is the dramaturge of over 20 productions in Slovenia, France, and Croatia. Vito Taufer, Cristian Colin, Jean Michel Bruyere, Krzysztof Warlikowski, Ivan Popovski are several of the directors he collaborates with. He has directed: *The name of the tongue tip* [Pascal Quignard], *Phaedra* [Marina Tsvetaeva], *Pilade* [Pier Paolo Pasolini], *Baš-beton* [Nikola Čelan], *Back to the desert* [Bernard-Marie Koltès], *The Fabulous Adventures of Apprentice Hlapić* [Ivana Brlić-Mažuranić], *The night juste before the forest* [Koltès], *Pigsty* [Pasolini], *Oedipus* [Seneca], *Schneewittchen After Party* [Robert Walser], *Medeamaftermaterial* [Heiner Müller]. His productions have been performed at international festivals in numerous countries. He was director of the *Croatian National Theatre* in Split [1998-2002], and is the co-founder [with **Dubravka Vrgoč**] and artistic director of the **World Theatre Festival Zagreb** from 2003.

*Schneewittchen* shares with its author **Robert Walser** [1878-1956] a certain air of intangible particularity: it has only been recently that artists of various fields have discovered this piece, while theoreticians are analyzing his enigmatic semantic tectonics and viewers enjoying its thrills. Croatian director and dramaturge **Ivica Buljan** sets **Walser's** drama piece into a cold fairytale playground in which Snow White with her snow-white neck reminds us of vampire victims, where the evil Queen plays the role of a *femme fatale*, unable to resist her own temptations, the Prince is indecisive and the Hunter plays a double role while undergoing an amazing transformation. In this spiral-like story all the actors strive for their own fairytale endings, which in the end turn out not to be: "...and they lived happily ever after."

**IVICA BULJAN** rođen je 1965. Kao dramaturg, u Sloveniji, Francuskoj i Hrvatskoj napravio je više od dvadeset predstava s redateljima kao što su **Vito Taufer, Christian Colin, Jean Michel Bruyere, Krzysztof Warlikowski i Ivan Popovski**. Režirao je predstave *Ime na vrhu jezika* **Pascala Quignarda**, *Fedra* **Marine Cvetajeve**, *Pilad* **Piera Paola Pasolinija**, *Baš-beton* **Nikole Čelana**, *Povratak u pustinju* **Bernard-Marie Koltésa**, *Čudnovate zgodne šegrtka Hlapića* **Ivane Brlić-Mažuranić**, *Noć zaustavljena pred šumama* **Koltésa**, *Svinjac Pasolinija*, *Senekinog Edipa*, *Schneewittchen After Party* **Roberta Walsera** i *Medeja materijal* **Heinera Müllera**. Predstave su mu gostovale na brojnim međunarodnim festivalima. Od 1998. do 2002. bio je direktor *Drame HNK Split*, a od 2003. s **Dubravkom Vrgoč** suosnivač je i umjetnički direktor *Festivala svjetskog kazališta Zagreb*.

**op.sa.co.** je osnovana 2001. i čine je pet aktivnih plesača/ica. Surađuje s više mladih glazbenika, likovnih umjetnika te umjetnika novih medija. Osim plesa, svaki član ima dodatna područja interesa koja postaju dijelom našeg rada - likovnu umjetnost, dizajn ili psihologiju. Osnovu našeg rada čini proučavanje svakodnevnih situacija i međusobnih odnosa u našoj urbanoj sredini koje interpretiramo na šaljiv način.

*Oprosti, sam' malo! ...* je plesna dekonstrukcija psihosocijalne pojave nelagode - *denfa*. *Denf* je tjelesna manifestacija osjećaja nelagode, izazvanog tendencijom prikazivanja u najboljem svjetlu, a ono je određeno socijalnom situacijom. Pokret smo pokupili s ulice. Od sebe, jedni od drugih i od slučajnih prolaznika. Pratili smo ga kako se razvija u različitim situacijama i s različitim ljudima; u tijelu i u raspoloženju. Pri obradi materijala upuštali smo se u istraživačke postupke.

Koreografinja **NATALIJA MANOJLOVIĆ** rođena je 1978. u Osijeku. Plesno i kazališno obrazovanje stiče u Osijeku i Zagrebu, po školama i radionicama u Hrvatskoj. Koreografski rad započinje u Osijeku [1998.] od kada sudjeluje u više projekata kao koreograf i asistent za scenski pokret. Od tada razvija vlastiti scenski izraz. Studira psihologiju.

**op.sa.co.** was founded in 2001 and is comprised of five active dancers. The company cooperates with several young musicians, visual and new media artists. Besides dance, every member has their own additional field of interest, such as visual arts, design or psychology, which is integrated into our work. The basis for our work comes from the exploration of everyday situations and interpersonal relations from our urban environment which we interpret in a humorous way.

*ex c(a)use me! ...* is a dance deconstruction of the psychosocial manifestation of uneasiness - *denf*. Caused by the tendency to exhibit one's best side, *denf* is a physical manifestation of uneasiness determined by a social situation. We picked up the movement from the streets. From ourselves, from others, and from passers-by. We watched it develop in different circumstances, and with different people, in bodies and in moods and we elaborated that material.

*Njihanje*, predstava/performans **Damira Bartola Indoša, Vilija Matule i Irme Omerzo** jest kazališni događaj koji možemo opisati kao "avangarda za svakoga: uđite bez straha". Metateatralne intervencije u tekstu, pokretu i dinamici izvedbe neprekidne su. Sve je to *jam-session* vrhunski uigranih izvođača. Njih troje nas vraćaju u zamišljeni, krugovima iscrtan prostor djetinjstva, u slikovnicu za koje likove nismo sigurni jesu li mama i tata, brat i sestra, je li **Indošev** lik lud ili samo genijalan. Leonardo ili Retardo? - pitamo se nepotrebno. Svojom drukčijom igrom, drukčijim ponašanjem, drukčijim bivanjem, **Indoš** traži to i e r a n c i j u . Pred nama narastaju pitanja o etičnosti i Bogu, usamljenosti i боли, r a s k o l u među odraslima i djecom. Publike se cijelo vrijeme nije s izvođačima.

**DAMIR BARTOL INDOŠ** was born in Zagreb in 1957. He is a philosophy graduate from the University of Zagreb. He began collaborating with the student theatre group **KUGLA GLUMIŠTE**. From 1988 he has been working independently with various Croatian and international artists [**Charlie Morrow, Eliot Sharp, Alli Gaggi, Emil Krištof, Yolanda Van Diik, Gerhard Pilgram**]. Since 1991 he has been collaborating with various musicians and filmmakers under the name **KUGLA GROUP**.

*Rocking*, a performance by **Damir Bartol Indoš**, **Vili Matula** and **Irma Omerzo**, is a theatre happening which can be called “avant-garde for all: enter without fear”. Inserted interventions in the texts and circular dynamic movements arise continuously during the performance. All this is part of a jam-session by an exquisite team of performers. These three bring us back to the rethinking of the being & space of early childhood through images whose personas are not altogether clear - are they mother and father? brother or sister? is Indoš' character crazy or a genius? Leonardo or Retardo? We ask needlessly. Within different playing, different behaviour, different being/existence, **Indoš** finds TOLERANCE. Questions are raised for us about ethics and God, isolation and pain, the SCHISM between grown-ups and children. During the entire performance the public is lulled & rocks together with the performers.

**DAMIR BARTOL INDOŠ** rođen je 1957. u Zagrebu. Studirao je filozofiju na Filozofskom fakultetu u Zagrebu. Počeo je suradnjom sa studentskom kazališnom skupinom **KUGLA GLUMIŠTE**. Od 1988. samostalno surađuje s mnogim hrvatskim i inozemnim umjetnicima [**Charlie Morrow, Eliot Sharp, Alli Gaggi, Emil Krištof, Yolanda Van Diik, Gerhard Pilgram**]. Od 1991. počinje surađivati sa raznim glazbenicima i umjetnicima koji se bave filmom pod imenom **KUGLA GROUP**.

Plesni solo **Željke Sančanin** *Private in Vitro* baziran je na ideji korištenja gledateljeva pogleda na tijelo performerce kao strateškog oruđa kritičke evaluacije javnog/privatnog kodiranja izvedbenog prostora. Kao *work-in-progress*, *Private in Vitro* istražuje vlastitu adaptibilnost novim prostorima, minirajući determiniranost uvjeta odabranog izvedbenog prostora. Materijalnost i funkcija tijela propituju se zaklanjanjem izravnog pogleda gledatelja na izvođačicu u pokretu, te raspršivanjem perspektive korištenjem video projekcije unutar video projekcije, sa sjenom izvođačice povremeno na putu svjetlosnom snopu projekcije. Pristup je moguć samo kroz interface. Identitet izvođačice postaje višestruko-jednostruk, dok ideja reprodukcije nadjačava onu produkciju.

**ŽELJKA SANČANIN** rođena je u Zagrebu 1979. Od 1997. pohađa treninge i radionice suvremenog plesa, fizičkog teatra, performansa, baleta. Godine 1998. zajedno sa **Sašom Božićem i Andrejem Vučenovićem** osniva kazališnu umjetničku grupu OBEPYU. Suosnivačica je **EkSperimentalne slobodne scene** 2001., udruge za edukaciju i istraživanje u plesnim i izvedbenim umjetnostima.

Autorski radovi u kojima je učestvovala kao izvođač i/ili koreograf: *La Primavera* [2000.]; *Female or Male* [2001.]; *Misterije orgazma* [2000.]; *Mjesta po kojima...* [2001. - 1. nagrada na 2. The solo dance performance *Private in Vitro* by **Željka Sančanin** is based on the idea of using the spectator's view of the performer's body as a strategic tool for critical evaluation of the public/private encoding of performance space. As a work-in-progress piece, *Private in Vitro* explores its own adaptability to new spaces, undermining determinate conditions of a chosen performance space. The materiality and function of the body are questioned by obscuring the spectators' direct gaze upon the performer in action and diffusing perspective using video projection within video projection and with the performer's shadow sometimes in the way of the projector. Access is available only through an interface. The performer's identity becomes multiple/singular and the notion of reproduction overpowers that of production.

**ŽELJKA SANČANIN** was born in 1979 in Zagreb. Since 1997 she has been taking classes and attending workshops of contemporary dance, physical theatre, performance and ballet. In 1998, together with **Saša Božić** and **Andrej Vučenović**, she co-founded the theater art collective **OBEPYU**. In 2001 she was a co-founder of the **Experimental Free Scene (EkScena)**, an independent organization for research and education in dance and performance art. *Solo me* je solo za dva izvođača - koreografa. Riječ je o postavi u kojoj se dodiruju dva različita koreografska solo materijala, mišljenja, procesa... Iako su oba sola rađena individualno i mogu se tako izvoditi, činila nam se zanimljivom upravo to supostavljanje, stapanje i prelamanje jednog u drugom.

**Solo Pravdana Devlahovića** inicira pitanjima definiranja prostora oko tijela i gledanog prostora minimalnim promjenama koje svojom elaboracijom postepeno inficiraju cijelo tijelo. Pravdan konstantno korača svoj koreografski materijal po različitim točkama u prostoru tako da ga u trenutku pronalaska ostavlja u potrazi za novim. Time se izlaže i različitim perspektivama u odnosu spram pogleda koji dolazi izvana inkorporirajući osjećaj da biva promatran.

**PRAVDAN DEVLAHOVIĆ** je plesač i koreograf. Surađivao je sa *Studioom MARE*, *Zagrebačkim plesnim ansamblom*, *LLINKT-om* i *Kompanijom MARMOT*. Jedan je od osnivača **BADco.**, gdje je do sada radio na pet različitih projekata [*2tri4; Čovjek.stolac; Diderotov nečak; Solo Me; Rebro kao zeleni zidovi*]. U svojoj posljednjoj koreografiji *Walk This Way* ispituje mogućnosti plesa u prostoru koraka.

**Solo Nikoline Pistaš** nastao je iz želje za tematizacijom započimanja i samozapočimanja. Razmišljanje o opetovanom započimanju definiranja pokreta dovelo ju je do ideje ispisivanja jedne koreografske rečenice u različitim koreografskim fontovima. Odabrani fontovi našli su svoj tjelesni pandan u korištenju različitih perspektiva, tehničkih fokusa, formalnih strategija i orijentacija koje redefiniraju i različitosti u afektivnom rezultatu unaprijed postavljene rečenice.

**NIKOLINA BUJAS-PRISTAŠ** je koreografinja i plesačica, jedna je od suosnivačica grupe **BADco.** *Solo Me* je drugi koreografski projekt kojeg, uz nju, autorski supotpisuje **Pravdan Devlahović**. Njena prva koreografija 2 [prvi dio triptiha *2tri4*] bila je dio *Aerowaves* selekcije. Obje koreografije realizirane su u suradnji unutar **BADco.**

**Solo Me** is a solo for two performers - choreographers. It is a production in which two different choreographic solo materials, opinions, processes come in touch with each other. Although both solos were made individually and can be performed as such, we found the idea of juxtaposing, adjoining and refracting one material into another to be very interesting to be explored further.

#### The solo by **Pravdan**

**Devlahović** initiates questions of defining the space around the body and the watched space with minimal alterations of movement, which, through elaboration, gradually infect the whole body. Pravdan walks his choreographic material, constantly passing through different points in the space in a way that the moment he finds the right spot he abandons it in search for a new one. By doing so he exposes his body to various perspectives in relation to the viewers, incorporating this consciousness of being watched all the time as an integral part of the performance.

The solo by **Nikolina Pristaš** is an attempt to thematicize the act of (self)beginnings.

Thinking about the idea of multiple beginnings, of the reiterated attempts of defining movement brought her to the idea of writing one choreographic sentence in different [choreographic] fonts. The chosen fonts found their corporeal equivalents by means of different perspectives, technical foci, formal strategies and orientations which, in turn, redefine the differences in the affective result in relation to the already placed sentence.

**PRAVDAN DEVLAHOVIĆ** is a dancer and choreographer. He has collaborated with **Studio MARE**, the Zagreb Dance Ensemble, **LLINKT** and the **MARMOT** company. **NIKOLINA BUJAS-PRISTAŠ** is a choreographer and dancer, and a co-founder of **BADco**.

*Solo Me* is her second choreographic project, and co-authored with **Pravdan Devlahović**. Živimo u svijetu događaja i objekata i samo je naša reakcija na taj svijet odgovorna za rađanje misli. Čim imamo iskustvo počnemo ga izražavati riječima. S tim izražavanjem iskustva kroz simbole riječi, misli se ostvaruju. Ta reakcija, ta navika izražavanja iskustva riječima, mislima, guši iskustvo, ostvarenje, viziju. Iskustvo je potisnuto, vizija je potisnuta i samo riječi ostaju lebdjeti umom. Upravo su te riječi naše misli. A kako se možemo razumjeti, ako u riječi koju ja izgovaram stavljam vrijednost i smisao stvari kakvi su u meni, dok ih onaj tko ih sluša neizbjegno prihvata sa smisalom i s vrijednošću koju imaju po sebi, svijeta kakav

We live in a world of events and objects and it is only our reaction to that world that is responsible for the creation of thought. As soon as we have an experience, we begin to express it with words. With this expression of experience through the symbols of words, thoughts are realized. That reaction, that habit of expressing experiences through words, through thoughts, suffocates experience, realization, vision. The experience is suppressed, vision is suppressed and only words remain to roam the mind. And it is these very words that are our thoughts. And how can we understand each other if I place value and meaning known only to me in the word I pronounce, while the one who hears it must accept it with value and meaning inherent to it, to the world as they know it... we think we understand each other, but we never do. This dance production had its start at a workshop that continued the exploration of the physical expression of different emotional states begun in Janeva's production of *Person*.

Današnje doba digitalne reprodukcije je skoro zaboravilo mogućnost propadanja medija koja nam je poznata iz doba korištenja magnetske vrpce. *orangecut* problematizira upravo taj potencijalni moment modifikacije zapisa zbog kojeg mogućnost reprodukcije postaje ključ konceptualizacije koja prethodi živoj izvedbi. Pokret plesačica se modificira osobnim *inputom* sekundarnih izvođača koji se tako pozicioniraju kao vrsta sučelja, te kreiraju posredovanu živu izvedbu u obliku video i audio izlaza. Koncept *orangecuta* ovisi u grešci u sistemu kako bi došlo do re-kreacije žive izvedbe, te je tako na liniji suvremene tendencije prikaza umjetnosti kroz prikaz procesa nastanka umjetničkog djela, često uz izlaganje dokumentacije, a ne [samo] artefakta.

Today's era of digital reproduction has almost forgotten the possibility of the medium's deterioration familiar to us from the days of magnetic tape recording. *orangecut* rethinks this potential moment of modification for which the possibility of reproduction becomes key to the conceptualization that precedes the creation of live performance. The dancer's movement is modified through the personal input of secondary performers, positioning these modifiers as a type of interface thus creating an indirect live performance in the form of video and audio output. The concept of *orangecut* depends on the glitch in the system in order to come to a recreation of the live performance and in this way it is in line with today's tendency of showing art by disclosing the process of the making of this piece, often with the exhibition of documentation, and not [just] the artifact itself.

## performans/performances

**Tanja Dabo, Ivana Jelavić** and **Siniša Labrović** belong to the younger generation of visual artists whose activities are not limited to performance alone, but the performative level is crucial for the realization of their works regardless of whether they initiate various forms of concrete social interactions or whether they use contemporary media to develop innovative models of participation. It is not possible to isolate the art of the performance by genre any more, seeing as this area actively includes various strategies, for instance, activism, social and institutional criticism, and, additionally, it is closely interwoven with various aspects of art production. The dense network of complex interactions, intimate and social situations in which gender and social roles intersect, power relations, formal and informal social contracts - all of these constitute a slippery ground on which the performance projects of these artists are being formed. The affirmation of the everyday, the wish to advance to the center of the public domain, as well as to its suppressed zones, is determined by individual attempts of mapping those social processes which serve to indirectly question both the production of art work and their place within the art system. The positive effort of these artists is directed toward filling in the gaps in social connections and overcoming the distance between social institutions and the individual.

**Tanja Dabo, Ivana Jelavić i Siniša Labrović** pripadaju mlađoj generaciji vizualnih umjetnika koji se ne bave se isključivo performansom, no za čiju je realizaciju rada ključna performativna razina bez obzira iniciraju li različite oblike konkretnih socijalnih interakcija ili uz upotrebu suvremenih medija razvijaju inovativne modele sudjelovanja. Umjetnost performansa više nije moguće žanrovski izolirati, jer to područje aktivno uključuje različite strategije, primjerice aktivizam, društvenu i institucionalnu kritiku, te je također tjesno isprepleteno s različitim aspektima umjetničke produkcije. Gusta mreža složenih interakcija, intimne i socijalne situacije u kojima se presijecaju rodne i socijalne uloge, odnosi moći, formalni i neformalni društveni ugovori tvore klizak teren unutar kojega se oblikuju performans-projekti ovih umjetnika. Afirmacija svakodnevice, želja za istupom u središte javnog kao i u njegove potisnute zone, određena je individualnim pokušajima mapiranja onih socijalnih procesa kojima se posredno preispituju i produkcija umjetničkih djela i njihovo mjesto unutar umjetničkog sistema.

Pozitivan napor ovih umjetnika usmjeren je popunjavanju pukotina u društvenim vezama i prevladavanju distance između društvenih institucija i pojedinca.

Projekt *Održavanje TANJE DABO* sastoji se od serije akcija, performansa i video-performansa objedinjenih temom održavanja [mentalno - ideje; fizički - prostora], koja se nadovezuje na ranije radove u kojima je umjetnica laštila različite prostore, uglavnom umjetničke institucije. Inicirajući akcije laštenja izvan muzejsko-galerijskog konteksta Tanja propituje uloge i kreativne mogućnosti ponavljanja radnje laštenja - pomalo uzaludnog, beskorisnog napora koji u prostoru ostavlja sjajan, tek jedva vidljiv, prolazan trag.

Radovi projekta *Održavanje* istražuju izvedbene i scenske mogućnosti uprizorenja čina laštenja. Proces se uslojava, a stvarna se akcija suodnosi ili zamjenjuje video projekcijom kao njenim simboličkim prikazom. Akcije laštenja evociraju problematiku 'nevidljivog', obezvrijedenog rada, različitih trauma u kontekstu obiteljskih i socijalnih veza, odnosa prema različitim društvenim institucijama, socijalnim i spolnim razlikama, modelima vrednovanja. Umjetničine kontinuirane akcije laštenja simptomatičan su primjer besmislene, apsurdne geste ali i metafora brige, održavanja resursa svakodnevice te prostora koji nas okružuju i u kojima djelujemo.

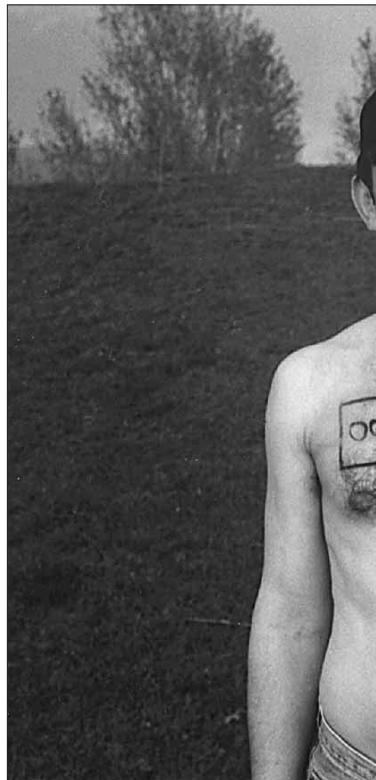

Tanja problematizira socijalnu vidljivost održavanja, uzastopnim ponavljanjem naoko besmislene radnje razvija njene simboličke potencijale i funkcije. Iako konkretne prostore u sklopu *Održavanja* umjetnica odista lašti, video projekcijama u proces prezentacije tih akcija unosi se vremenski pomak.

**TANJA DABO**'s project *Maintenance* consists of a series of actions, performances and video-performances, united by the theme of maintenance [mentally - of an idea; physically - of a space], which is a continuation of her earlier works, in which the artist polished various rooms, mostly art institutions. Initiating the act of polishing outside the context of museums and galleries, Tanja examines the roles and creative possibilities of repeating the act of polishing - a sort of useless effort that leaves a shiny, but barely visible, transient mark.

The works of the *Maintenance* project examine the performative and scenic possibilities of staging the act of polishing. The process acquires new layers, and the real action interacts with or is replaced with a video projection as its symbolic presentation. The acts of polishing evoke the issues of the "invisible", of undervalued work, of various traumas in the context of family and social ties, of relations to various social institutions, social and gender differences, and models of validation. The artist's continued actions of polishing are a symptomatic example of a meaningless, absurd gesture, but also a metaphor of caring, of maintaining the resources of the everyday, and the spaces that surround us and in which we work.

Tanja considers the social visibility of maintenance; by constantly repeating apparently meaningless actions she develops their symbolic and potential functions. Although the artist really polishes the floors of actual rooms within the *Maintenance* project, the video projections add a temporal shift to the process of presentation of these actions.

## Fraze - Umjetnik se provodi kao bos po trnu / Phrases - The Artist Is Having A Rough Ride

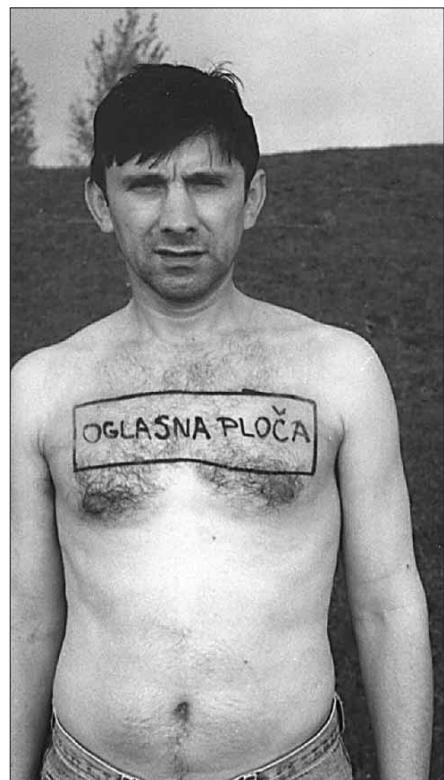

**SINIŠA LABROVIĆ** rođen je 1965. u Sinju. Diplomirao je hrvatski jezik i književnost na Filozofskom fakultetu u Zagrebu. Povremeno radi kao profesor. Dobitnik je treće nagrade za scenarij Srce na natječaju Imaginarne akademije Grožnjan i Centra za dramsku umjetnost Zagreb 1999. U Quoru je objavio ciklus pjesama *Ljetni Isus*. Bavi se performansima i instalacijama.

Born in 1965 in Sinj. Graduated Croatian language and literature at the **Philosophy Faculty** in Zagreb. Occasionally works as a teacher. He was awarded Third Prize for his screenplay *Srce [Heart]* in the **Imaginary Academy** [Grožnjan] and **Center for Dramatic Arts** [Zagreb] contest in 1999. He published *Ljetni Isus* [*Summer Jesus*], a series of poems, in *Quorum* journal. He does performances and installations.

- 2003. performans *Oglasna ploča/Performance Announcement Board*, *START*, Galerija Karas, Zagreb

Performans *Umjetnik se provodi kao bos po trnu*, dio je serije performansa *Fraze* koji uz minimalnu upotrebu izražajnih sredstava pokušavaju uprizoriti različite realizirane metafore uobičajenih fraza i poslovica hrvatskog govornog jezika. Svakodnevne fraze, čiju se značenje izlizalo od česte upotrebe **Siniši** su poslužile kao predložak za propitivanje odnosa jezika i značenja te položaja umjetnika unutar institucionalne mreže i dominantnih modela vrednovanja umjetničkog rada. Realizacijom i uprizorenjem govornih fraza umjetnik apsurd doslovnog prevodenja jezika u gestu razmatra u kontekstu marginalizirane pozicije umjetnika unutar sustava umjetničkih institucija, istražujući može li pojedini individualni istup i u kojoj mjeri na njega utjecati.

The performance *The artist is having a rough ride* is a part of a series of performances entitled *Phrases*, that with a minimal use of a means of expression attempt to stage various realized metaphors of common phrases or sayings of the Croatian spoken language. The everyday phrases, whose meanings have been worn off by frequent use, serve as a template for **Siniša** to examine the relation between language and meaning, as well as the position of the artist within an institutional network and within the dominant models of evaluating an artist's work. Through the realization and staging of vernacular phrases, the artist considers the absurdity of literally translating language into gesture in the context of the marginalized position of the artist within the system of art institutions, and tries to find out if an individual act can influence it, and to what extent.

Osobno, repetitivno, naizgled obično bilježenje svakodnevice u radu **IVANE JELAVIĆ** obilježeno je naporom da se unutar monotonih blokova bezdogađajnog i ne-ekspresivnog pokušaju locirati kratki, efemerni, začudni pomaci kontemplativnog karaktera. Subjektivna iskustva gustoće, intenziteta i protoka vremena koje transformira određena stanja ili događaje ključna su za razumijevanje Ivaninih rada.

Pri bilježenju i suodnošenju tih istovremenih ili vremenski odvojenih procesa Ivana koristi medij videa, kontinuirano istražujući načine registriranja protoka vremena i mogućnosti njegova konstruiranja. Transformacije tih monotonih stanja strukturalno često poprimaju repetitivne zatvorene matrice kruga ili spirale, odvijaju se na samoj granici vidljivosti i nemoguće ih je jednoznačno definirati. Performans *Bez naziva* umjetničinu akciju u realnom vremenu suodnosi s video - projekcijom. Riječ je o naizgled običnim procesima koji nalikuju igri, no čije uzastopno ponavljanje i vremenska protežitost postepeno podcrtavaju apsurdnost situacije. Bez naziva posredno referira na niz pojmova i društvenih stereotipa (dom, obitelj, zajednica, životni stil) i vrijednosti koje oni generiraju. Zagušenost unaprijed zadanim socijalnim predodžbama i matricama umjetnica pokušava prevladati traženjem novih vertikalica.

Personal, repetitive at first glance, an ordinary registering of the everyday life in the work of **IVANA JELAVIĆ** is marked by the effort to localize short, ephemeral, strange shifts, contemplative in character, within monotonous blocks of the uneventful and the non-expressive. The subjective experiences of density, intensity and time flow that transform certain situations or events are crucial for understanding Ivana's works.

Ivana uses the medium of video to register these simultaneous or temporally isolated processes and juxtaposing them, continuously examining the various ways to register the flow of time and the possibilities of constructing it. The transformations of these monotonous states often structurally assume repetitive, closed, circular or spiral matrices; they develop on the very limit of visibility, and it is impossible to define them explicitly. The performance "*Untitled*" juxtaposes the artist's action in real time and its video projection. These are apparently common processes that resemble a game, but their continual repetition and continuation gradually emphasize the absurdity of the situation. "*Untitled*" mediates a series of notions and social stereotypes (the home, family, community, lifestyle) and the values they generate. By searching for new verticals, the artist attempts to overcome the blockage caused by predetermined social presentations and matrices.

Niz malih inicijativa čini hrvatsku plesnu scenu danas bogatom i zanimljivom. Niz koreografa, od kojih su neki već doživjeli i međunarodno priznanje, ne predstavlja svoj rad samo u okviru festivala ili **Platforme mladih**

**koreografa.** Skromni, naizgled nemogući uvjeti produkcije doveli su do novih oblika suradnje i samoorganizacije koji su, unatoč lošim prilikama [ili upravo zbog njih] oživjeli scenu. Ples danas ponovno proživljava razdoblje pojačane vidljivosti djelujući često s marginе umjetničke scene. Istraživanje pokreta i tehnika, te pridavanje velike pažnje izgradnji tijela, dovelo je do samostalnosti izvođača, njihovog samorazumijevanja i afirmacije kao autora.

Nakon dva desetljeća strogog razgraničavanja profesionalnih plesača i amatera, devedesete donose nova strujanja unutar plesne scene. Novi oblik strukturiranja ne čine više ansambl, već dinamičniji oblici suradnje. Mlada generacija koreografa ne nalazi mogućnost za rad unutar ansambala čija produkcija više ne stimulira scenu, te sama pokreće projekte i okuplja plesače, čime dolazi do dehierarhizacije odnosa na sceni.

Jak poticaj jačanju plesne scene najmlađe generacije dala je **EkS-scena [Eksperimentalna Slobodna scena]**, otvorena platforma za suradnju na zajedničkim projektima, komunikaciju i razmjenu informacija. Ona je također omogućila plesačima koji djeluju van plesnih ansambala redovite plesne treninge, mogućnost pohađanja radionica domaćih i stranih koreografa te audicije koje, u odsutnosti plesne visokoobrazovne institucije, omogućuju daljnju edukaciju u inozemstvu.

Poznato je [i često se spominje poput žalopojke] da je plesna scena u Hrvatskoj jedina umjetnost bez vlastita prostora, bez dvorana za edukaciju i probe, bez scena za prezentaciju vlastite produkcije. U međuzoni između "tuđih" prostora i ulice, plesna scena se okreće novim lokacijama i novim oblicima interdisciplinarnе suradnje s teoretičarima, glazbenicima, likovnim umjetnicima te kreira vlastite prostore. Potraga za fizičkim prostorom za rad povela je plesače i koreografe u potragu za komunikacijskim prostorom, uzajamnim prepoznavanjem, ne samo unutar plesne scene, već i kroz mnoge interdisciplinarnе suradnje, što plesnu scenu, uz pojedine kazališne projekte [**Buljan, BADco., Njihanje**] koji na sličan način istupaju iz ustaljenih okvira, u ovom trenutku čini najzanimljivijim segmentom izvedbenih umjetnost i razlog je ovakve selekcije.

A number of small-scale initiatives are making today's Croatian dance scene plentiful and interesting. A number of choreographers, some of whom have achieved international acclaim, are no longer relying on festivals or the **Platform of young choreographers** to present their work. Highly modest, seemingly impossible production conditions have led to new forms of collaboration and self-management that have, despite [or perhaps because of] poor circumstances, animated the dance scene. Today, dance is once again experiencing a period of heightened visibility operating from the margins of the art scene. The research of movement and techniques, and paying greater attention to training the body, has all lead to the independence of the performers, their self-awareness and affirmation as authors.

After two decades of strict differentiation between professional and non-professional dancers, the nineties brought about a new life to the dance scene. It is no longer the ensembles, but new and more dynamic forms of collaboration that offer possibilities. No longer finding it possible to work within an ensemble whose production no longer stimulates the dance scene, the younger generation of choreographers is drawing together dancers and setting up new projects on its own, leading to a shift in the hierarchy of the dance scene.

A strong incentive for the growth of the scene was found in **EkS-scena** - an open platform for collaboration on joint projects, communication and exchange of information. It also made possible daily dance classes for dancers not working in ensembles, and the chance

## kontakti/contacts:

to attend workshops with local and international choreographers, as well as auditions that, in the absence of higher dance institutions, give dancers the possibility of further education abroad.

It is well known [and often repeated like a lament] that dance is the only art in Croatia without its own spaces, without halls for education and rehearsal, without stages to present its productions. In the interzone between "someone else's" spaces and the street, dance is turning to new locations and new forms of interdisciplinary collaboration with theoreticians, musicians, visual artists, and creating its own spaces. The search for physical space has led dancers and choreographers to search for communication space and mutual recognition not just within the dance scene, but through much interdisciplinary collaboration, making it, and several theatre projects [**Buljan**, **BADco.**, *Rocking*] which step out of the frame in a similar fashion, a most interesting segment of performing arts currently and the reason for this type of selection.
